

The Nation of Makers Conference (NOMCON), occurring June 14-16, 2019 in Chattanooga, Tennessee, is our annual gathering of the Nation of Makers community. This two day working conference is designed to bring together the breadth of the national maker community towards the goals of:

- **Building a strong Nation of Makers network between diverse organizations, industries, government entities and our members nationwide**
- **Generating robust, long-lasting collaborations, partnerships and projects that achieve more impact than any one organization could achieve on its own**
- **Maintaining and encouraging the growth of an inclusive Nation of Makers**
- **Maximizing both local and global impact through the passion, creativity and diversity of the maker community**

“Coming together is a beginning; keeping together is progress; working together is success.”
- Edward Everett Hale

Building on the momentum of intentional inclusion from our inaugural event, NOMCON 2019 celebrates the Power of the Network; that our collective talents, resources and backgrounds are the backbone of the Maker Movement and by working together, we are stronger. We accomplish this by curating an engaging conference that encourages attendees from all corners of the country to harness the power of the network together through facilitated breakout sessions, small-team working groups, open discussions, structured and unstructured networking opportunities, and dynamic keynote speakers.

The Power of the Network will also feature prominently in our Exhibitors' Hall which provides an opportunity for your organization to host a booth. What sets this space apart is our maker community, which is built upon creators, inventors and lifelong learners. Those wishing to exhibit can expect engaging dialogue, hands-on experiences and interactive exhibits. The Nation of Makers will provide assistance in the process to ensure your planned experiences are interactive and in keeping with the overall vision for the conference and the space.

Single Booth 10' x 10' at \$1,500
